The State Beard of Embalming met yesterday at the St. James Hotel for the purpose of examining a number of applicants for State certificates.

The board is composed of C. J. Carroll of Kansas City, Joseph Martin, Lee's Summit: August Lohmeyer, Springfield; J. L. Oglivis, Charleston, and G. B. Hickman. Butler. The board spent the entire day examining applicants. There were about forty present and the work was not finished. Each applicant is subjected to a number of oral questions to determine his fitness.

G. B. Hickman of Butler is the chairman of the board. It was through his efforts at the session of the Thirty-eighth General Assembly that the law was adopted. Mr. Hickman is not the solemn-faced person one would expect to find engaged in this profession. His friends declare he is the folliest joker in the State. He has served a term as Mayor of his town and has been a member of the State Board of Embalming since it was created.

More than 150 of these are girls, of whom half have been organized into a sewing class, which receives instruction on alternate days. Coroner Lloyd completed his inquest yesterday on the body of Blanche Skeele, who was killed Sunday night in the street car accident at Broadway and Maeder street. Thomas G. Free and George H. Kansas City Men Want a 25,000 Acre Wheat Field in Oklahoma.

Guthrie, Ok., Aug. 22.—A Kansas City firm has entered the grazing country in and around Okmulgee, the capital of the Creek Nation, in competition with the cattlemen who have for years dominated that region. The new corporation is making leases by the wholesale, and proposes to turn the rich valley into a gigantic wheat field. Already 25,000 acres have been leased. The Indians have for years received only 25 cents an acre from the cattlemen for grazing privileges, and the entire country was given up to this. The new firm offers them 25 cents an acre for all lands and 31 for all land in cultivation. In addition it binds itself to erect a wire fence around each lease, plant an orchard and erect a comfortable house.

TEXAS MILLINER HAS DISAPPEARED.

Coroner's Jury Finds That Blanche Mrs. Kate Cortinez, Who Came to St. Louis Monday, Not Seen Since by Friends.

Left Boarding-House to Mail Letters and Never Returned-Police Asked to Locate the Missing Woman.

Mrs. Kate Cortinez, a milliner from Boeme, Tex., who arrived here Monday to

jobbing houses of the city, where she has been a customer for several years. On the way to this city from Texas on the present trip she met other milliners from adjacent towns in Texas, who, noticing that she was alone and apparently without friends on the train, engaged her in conversation and sought to make her trip as pleasant as possible. Mrs. E. J. Hunt of Alvord, Tex., took an especial interest in her, and the two became quite friendly. Mrs. Hunt says that Mrs. Cortinez told her she had an idea of seeking employment here, or, failing that, it was her intention to open a small

millinery establishment.
When the train reached St. Louis Monday morning Mrs. Hunt induced Mrs. Corti-nez to engage rooms with her at Mrs. Mc-Dermott's boarding-house, No. 1535 Locust street. Quite a number of their fellowstreet. Quite a number of their fellow-passengers also engaged rooms here, and in the hurry of the moment Mrs. Cortinez forgot to register, and the oversight was unnoticed until late in the day. She carried a small hand-bag, containing a change of linen and toilet accessories, and this she left in her room while she and Mrs. Hunt visited several of the wholesale millinery establishments.

left in her room while she and Mrs. Hunt visited several of the wholesale millinery establishments.

They returned to their room in the afternoon, and both wrote letters to their friends at home. There were no stamps in the house, and Mrs. Cortinez said she would go to the drug store to purchase the stamps. She took Mrs. Hunt's letters with her, saying she would stamp them and mall them while she was out. Mrs. Hunt offered her a bill to pay for the stamps, but she said she had some small change, and Mrs. Hunt could repay her later. She went out and has not since returned.

Mrs. Hunt waited several hours for her return, and then, wondering at her long absence, went to the drug store and learned that Mrs. Cortinez had nurchased the stamps and departed immediately. The following morning, when Mrs. Hunt learned she had not returned to the house, she did not attach much significance to the fact, believing that the widow might have hunted up some St. Louis friends and spent the night with them. When Mrs. Cortinez failed to attend the millinery opening Tuesday, however, Mrs. Hunt became worried.

Careful inquiries were made among the visiting milliners without result. So far as is known Mrs. Cortinez had no friends in the city with whom she could stay, and none of her business acquaintances have seen her since Monday. No reason can be advanced by those who know her why she should seclude herself, and they have the gravest anxiety as to her welfare.

Last night her friends decided to notify the police of her disappearance and ask the department's assistance in finding her.

Mrs. Cortinez is a small, trim little woman, with a graceful carriage and the knack of dressing neatly and quietly. When she left the boarding-house she was dressed for the street. Her dress was a lawn with purple and white stripes. F. P. Kaiser, Publisher.

St. Louis Machinist Went to Hanover, Germany, to Bring Back Margaretha Paulessen-Were Married in America.

After waiting seven years for his bride, Peter Offermann, a machinist, living at Fourth and Walnut streets, was married at noon yesterday by Justice Walker to Miss Margaretha Paulessen of the Province of Hanover, Germany. The wedding was the culminiation of a courtship of nine years' duration, in which nearly all the obstacles that lovers could encounter were faced and overcome.

Offermann is the son of a farmer and until seven years ago lived in Germany. His wife is the daughter of a farmer who lived near the Offermanns. The two were schoolmates in the public school in the Fatherland and became sweethearts in their youth, When Margaretha was 19, he proposed marrlage and received her consent; but her father opposed, declaring his daughter should not marry until she was 26 years

In the old country elopements are much more difficult of execution than here, and therefore are of rare occurrence. Offermann accepted the inevitable, and after pledging his fidelity to the girl, emigrated to America, promising to return to make her his bride as soon as she had arrived at the age prescribed by her father. He settled in St. Louis and applied himself assiduously to the study of machinery. He corresponded regularly with his sweetheart, promising to return to claim her hand as soon as the parental age limitation expired. Miss Paulessen was 26 years old on July 3, last. Hospital Surgeons Begin Their Efforts-Sisters Gave the Cuticle.

The delicate and tedious operation of grafting a new scalp on the terribly lacerated head of Adele Lynch was begun at the City Hospital yesterday by Superintendent Nietert and Doctor Abeken.
Cutlele for the purpose was given by the unfortunate girl's sisters, Katheryn and Marguerite, who submitted gladly to the painful operation of stripping it from their arms. The doctors will not be able to tell whether the first operation was successful until seven days have elapsed.

Adele Lynch is the girl whose entire scalp was torn off by machinery in the printing office of Parker Bros., at Third and Olive streets, Tuesday afternoon. It was thought at first that she could not survive the shock, but she is now thought to have a fair chance of recovery.

At 2 o'clock yesterday afternoon the pattent was ready for the operation. Her two sisters bravely stood the ordeal of having the skin cut from their arms. The skin was placed on the head of the patient as soon as it was removed from the arms.

Doctor Nietert says that he expects the skin-grafting process to be more successful in this case than it was with Ruby Richards, because it was commenced sooner.

"There are about 169 square inches to be ards, because it was commenced "There are about 169 square inches to be covered," he said, "If the patient lives I shall perform the operation once each month, taking about twenty grafts of one inch each from the arms or legs of her friends and relatives. In response to requests which have been received by Manager H. S. Tuttle, he has decided to give the public an opportunity to inspect the beautiful displays, and to-day and to-morrow any one who desires to call and view them will be welcomed.

Since the opening of the Exposition, over 750 buyers from all parts of the United States, as well as some from England, Mexico, Cuba and Honolulu, have been in attendance, and made their purchases from dealers and many manufacturers, who were exhibitors.

Over fifty firms were represented, and more than 50,000 square feet of floor space was occupied by the displays.

Everything that is new and handsome in the furniteure line, as well as coffinus, caskets and other funeral supplies, is shown.

The Exposition has been so successful that arrangements are being made for the erection of a permanent building to be devoted to it. The proposed building will contain over 75,000 square feet of floor space and will be one of the finest buildings of its kind in the country. It is expected that everything be in readiness to begin work by January 1, 1901.
